B-BBEE Solutions

TRAINING PROGRAMMES WE OFFER.

Do you have a large skills development target to meet? We have a solution that will save a small fortune !

Empower has in partnership with Excellerate Services (formerly Enforce Security Services) developed a unique rewards and incentive programme for clients who wish to spend their B-BBEE skills development spend with us.

Its quite easy.

Your payroll is R 8m p.a. Your skills development target is R510 000.

If you decide to spend this amount with us then we will:

- **advise you how to maximize your B-BBEE skills development score ,**
- **train your staff using one or more of the variety of skills qualifications and programmes at our disposal.**
- **source and recruit unemployed learners on your behalf where this is required to meet B-BBEE targets .**
- **source and recruit disabled learners that you**

And that's not all

We will give your company R 150 000 worth of redeemable security and cleaning services and /or products — for free !

Call us now for a free consultation.

How does this work?

What if my company is already receiving a service from Excellerate Services (Enforce) ?

We will give you a credit note /voucher for the reward amount . This can be used to 'pay' for the services or any other product available.

What if I am with another security company?

If you move your business over to Excellerate Services and spend your skills development requirement on Empower then you will qualify for the rewards.

What if I don't want to move to Excellerate Services but want Empower to assist me with my B-BBEE spend.

We can still assist you with your training needs but we will not be able to offer you any reward incentives.

What rewards can I get?

Whatever product or service is offered by Excellerate Services .This may include guarding, CCTV cameras, investigations or even a cleaning service for your business premises.

What is the actual benefit to my company?

1. You will enjoy a 30% saving on any existing security or cleaning related service that you are currently paying for.
2. If you move to Excellerate Services for your guarding and cleaning needs you may even use the rewards to fund some of your future costs in this regard.
3. You will be spending your required skills development spend on a SETA accredited training provider who will do all the BEE audit work for your skills spend.
4. Empower has a level 3 , 51% Black owned B-BBEE status. Your spend is thus 'inflated ' by 125%.
5. You receive free professional; consulting/ advice regarding your skills development needs.
